Deposits will be received daily and put upon interest on first day of every month.

Dividends payable on and after January 1st and July 1st.

Accounts of \$1 to \$2,000 can be opened in the name of one person alone, and also in the name of one person in trust for another. Both can accumulate to \$4,000. Joint Accounts—payable to either, or to the survivor—\$1 to \$4,000, can be opened and accumulate to \$8,000.

Deposits and withdrawals may be made by mail.

This Bank is examined and audited by the Bank Commissioner's Department of Massachusetts.

Safety with Service.

The Name of....

BUCKLEY

HAS STOOD FOR RELIABILITY, FOR VALUE, AND FOR STYLE
IN FURNITURE OVER A PERIOD OF THIRTY-EIGHT YEARS
IN YOUR COMMUNITY.

GOOD FURNITURE AT MODERATE PRICES is our slogan, and we are constantly searching the great Furniture Markets in order to offer our customers the best value to be had at the price,—but always with the thought of Quality foremost in our minds, for no matter how low priced an article may be, unless it is made of proper materials, carefully constructed and well finished, it will prove to be expensive in the end.

Strict adherence to this policy has built up this business from a very modest beginning to one of the largest and most aggressive Furniture Houses in the State. We occupy and use the entire six floors of our building at 284 Essex Street, and a floor in the Oswald Building, next door, also. We offer for your selection the largest and most varied stock of furniture to be had in Lawrence, together with courteous service and an Ironclad Guarantee behind every article sold.

Barrett Everlastic Roofings

and Specialties

FOR over sixty years we have been making roofings and other materials for farm and home. Every article on our list, therefore, may be bought with absolute assurance that it will be found thoroughly practical and reliable in every way.

EVERLASTIC MULTI-SHINGLES—Four shingles in one, each strip being as easily laid as a single shingle of any other kind. Saves labor and nails. The surface is "slated" in red or green. These Everlastic Multi-Shingles give a double thickness all over the roof, with three thicknesses where the wear is most severe. Fire-resisting.

EVERLASTIC SLATE-SURFACE ROOFING—A really splendid roofing, beautiful and artistic when laid. Slate-surfaced, yet sold in rolls. Made from the same materials as Everlastic "Rubber" Roofing with a special wearing-surface of crushed-slate particles, either red or green. Makes a fire-resisting and very durable roof.

EVERLASTIC TYLIKE SHINGLES—Same material as the Multi-Shingles, in red or green. Cut-in single shingles, 8 x 12¾ in. Laid like ordinary wooden shingles and provide a triple thickness all over the roof. Make a beautiful, fire-resisting roof that will give long service.

EVERLASTIC "RUBBER" ROOFING—The most widely used of all our roof roofings, protecting hundreds of thousands of buildings all over the world. Tough, pliable, water-proof, and low in price. Very easy and economical to lay as no skilled labor is required. Nails and cement packed in each roll.

ELASTIGUM—This wonderful water-proof cement has a hundred different uses. Especially useful for mending gutters, joints around chimneys, parapets, skylights, etc. It is easy to apply, is acid-proof, damp-proof, and it sticks. Can be used in wet weather.

BARRETT'S CARBOSOTA LIQUID CREOSOTE OIL—Is the most efficient wood-preserved on the market to-day. It combines in the highest degree ability to penetrate deeply into the wood, antiseptic action toward fungous growth and insects, and resistance to the action of water and air. Its use will cut your wood-preserving bills in half.

EVERJET ELASTIC PAINT—Everjet is a high-grade carbon paint for industrial use; has no equal for protecting metal of all kinds against corrosive action of acids, alkalies, fumes, vapors, etc. Being elastic, extremes of heat or cold do not affect it. Water-proof and fire-retarding. Gives a perfect coating unbroken by pinholes or blebs. Try it.

Barrett Everlastic Roofings

and Specialties

FOR over sixty years we have been making roofings and other materials for farm and home. Every article on our list, therefore, may be bought with absolute assurance that it will be found thoroughly practical and reliable in every way.

EVERLASTIC MULTI-SHINGLES—Four shingles in one, each strip being as easily laid as a single shingle of any other kind. Saves labor and nails. The surface is "slated" in red or green. These Everlastic Multi-Shingles give a double thickness all over the roof, with three thicknesses where the wear is most severe. Fire-resisting.

EVERLASTIC SLATE-SURFACE ROOFING—A really splendid roofing, beautiful and artistic when laid. Slate-surfaced, yet sold in rolls. Made from the same materials as Everlastic "Rubber" Roofing with a special wearing-surface of crushed-slate particles, either red or green. Makes a fire-resisting and very durable roof.

EVERLASTIC TYLIKE SHINGLES—Same material as the Multi-Shingles, in red or green. Cut-in single shingles, 8 x 12 $\frac{3}{4}$ in. Laid like ordinary wooden shingles and provide a triple thickness all over the roof. Make a beautiful, fire-resisting roof that will give long service.

EVERLASTIC "RUBBER" ROOFING—The most widely used of all our roof roofings, protecting hundreds of thousands of buildings all over the world. Tough, pliable, water-proof, and low in price. Very easy and economical to lay as no skilled labor is required. Nails and cement packed in each roll.

ELASTIGUM—This wonderful water-proof cement has a hundred different uses. Especially useful for mending gutters, joints around chimneys, parapets, skylights, etc. It is easy to apply, is acid-proof, damp-proof, and it sticks. Can be used in wet weather.

BARRETT'S CARBOSOTA LIQUID CREOSOTE OIL—Is the most efficient wood-preservative on the market to-day. It combines in the highest degree ability to penetrate deeply into the wood, antiseptic action toward fungous growth and insects, and resistance to the action of water and air. Its use will cut your wood-preserving bills in half.

EVERJET ELASTIC PAINT—Everjet is a high-grade carbon paint for industrial use; has no equal for protecting metal of all kinds against corrosive action of acids, alkalies, fumes, vapors, etc. Being elastic, extremes of heat or cold do not affect it. Water-proof and fire-retarding. Gives a perfect coating unbroken by pinholes or blebs. Try it.

DESCRIPTIVE BOOKLETS UPON REQUEST

INSTRUCTIONS

Citizens are requested to learn the location of the nearest Fire Alarm box to their residence or place of business. The opening of the box door does not give the alarm; you must pull the hook on the inside away down once only. Persons giving the alarm should remain at the box and direct the firemen to the fire.

Special Signals

Two blows for test at 7.45 P M

Two blows fire under control all apparatus under way return to quarters

Second Alarm

Three blows followed by box number

All special signals to be given by one of the Board of Engineers

No School Signals

Three blasts of Fire Alarm Whistle with five seconds intervals

7:30 No Morning Session for any School

12:30 No Afternoon Session for any School
